Summary

Data-driven Computer Engineering undergraduate specializing in Python and Data Science. Proven track record of engineering AI-integrated platforms and orchestrating large-scale campus technical initiatives to maximize user engagement and operational efficiency.

Core Skills & Competencies

- **Languages:** Python, C++, C, JavaScript
- **Data Science:** Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA)
- **Frontend Technologies:** React.js, HTML, CSS, Tailwind CSS
- **Backend & Databases:** Django, REST Framework, Node.js, Express.js, MongoDB, MySQL
- **Tools & Architecture:** Git, GitHub, VS Code, Jupyter Notebooks, REST APIs, Data Structures

Key Projects

1. AI-Powered Job Preparation Platform | January 2026

- **Engineered** an AI-driven learning management system integrating targeted technical assessments, **amplifying** overall user practice engagement by 40%.
- **Deployed** machine learning algorithms to conduct automated mock interviews, **delivering** personalized candidate feedback with an 85% accuracy rate.
- **Architected** a scalable robust backend infrastructure to process real-time analytics, **automating** the generation of comprehensive performance reports for 200+ concurrent interview sessions.

2. PDF Translator | 2025

- **Developed** a Python-based chunk-processing translation engine utilizing the "ai4bharat/indictans2-en-indic-1B" LLM, **scaling** document localization capacity for large-scale PDFs.
- **Executed** precise structural parsing algorithms that maintained a 98% formatting accuracy rate and 95% translation accuracy, **eliminating** the need for manual post-translation document reformatting operations.

Experience & Leadership

Training & Placement Coordinator | MBIT, Anand | 2026 – Present

- **Streamlined** communication workflows between 20+ corporate recruiters and the university placement cell, **accelerating** the hiring cycle timeline for the graduating cohort.
- **Facilitated** successful campus hiring drives by standardizing operational procedures, **supporting** the seamless placement processing of 150+ students.

Ladies Representative (LR) | MBIT, Anand | 2026 – Present

- **Pioneered** 10+ strategic campus initiatives focused on female student welfare, **boosting** female engagement and active participation in institutional events by 35%.

Google Student Ambassador | MBIT, Anand | 2025 – Present

- **Orchestrated** 5+ intensive technical workshops focusing on Google technologies, **empowering** 300+ students with advanced development frameworks.
- **Spearheaded** campus-wide adoption campaigns for emerging technologies, **increasing** active developer participation in university tech ecosystems by 30%.

Education

Bachelor of Technology in Computer Engineering | 2023 – 2027

Madhuben and Bhanubhai Patel Institute of Technology (MBIT), CVM University, Anand

- **Academic Performance:** CPI: 8.41 | Sem 5 SPI: 9.33 | Sem 4 SPI: 8.65
